

SHARx SPECIALTY PRESCRIPTION PROGRAM

Attack prescription costs!

SHARx is a pharmacy advocacy program that works to save you money on your specialty prescription medications that are not covered by medical insurance. Stanz-Troyer provides this program to all medical plan members at no additional cost.

Members often get their medications for FREE! For medications that are not available at no cost, SHARx helps members access these medications through the SHARx interactive portal at a very small fraction of the cost.

Getting started is easy!

1. Create an account.
2. Verify personal and prescription information.
3. Sign HIPAA form.

Try out the SHARx app at app.sharxplan.com
